

NURPE Supermirage: Stockholm Supermarket Artfair

13 - 15.2.2009

The plan / concept:

Supermarket? What kind of associations do we get? Sounds like Åbo Culture Capital or a Management School in Istanbul. The fact that Markets are not doing so well at the moment is in fact a possibility for art and culture. To build up a small scale ethical mind game industry. Nina Kivinen has promised to write about that issue.

Artfair then? Max selling tickets and lobbying. Bullseye!!!

And last but not least Stockholm? Home sweet home for many of you/us and an arena of a successful Oasis.

PS Helena and Stella sent earlier a wonderful reflection and proposition that we can warmly agree with. And please... bring your chairs with you.

- -

We will give to Supermarket a list of everybody who has announced their participation, so you can show up and help us build the Nurope booth. This process will not be coordinated more specifically. Just show up and bring something... if you want. (The chaos as a performance can be the actual artpiece.)

Participants so far: Yulia, Stella, Max, Peter, Nik, Helena, Camilla, Raine, Maria, Mikael, Lieven...

And to those who will participate in the Åbo Oasis this spring, there is now an opportunity to meet fresh Åbo people in the Titanik booth. Arte has a new exhibition and residency coordinator Riina, and two new artist members participating Supermarket.

Titanik is presenting its current new media residency artist Ellen Sofie Griegel.
