June 2010 #5

Excursion and dinner

Message from the coordinator

Dear friends,

In this newsletter you'll find a reminder on the annual seminar. The seminar will be the last of the Biofuels GS2 and we expect a large attendance in Copenhagen! DTU will organise the seminar.

Anne-Leena left the coordination of the school and got a new job at the faculty. We'll miss her help with the school. Mia Mäkinen promised to help us out. So we can expect a hot autumn with a lot of work with final reporting and the last seminar

Good news is that Markus will defend his thesis on June 18th, 2010

With kind regards,
Maria Zevenhoven

DEADLINE FOR REGISTRATION:

September 1, 2010 to Maria
(mzevenho@abo.fi)

The structure of the presentation is such that you can choose to:

1. present your research progress. The presentation ends with conclusions and future actions.

or

2. present a summary of the last 4 years of membership in the Biofuels GS-2

Presentation time will be 14 min+6 minutes discussion.

DEADLINE FOR YOUR PPT:

20th September to be send to Maria.

In this way we save time at the seminar when all presentations are ready for showing

All students connected to the school are very important for the success of the school and we really hope to meet you all in Copenhagen

Yearbook

It is also time again to collect all our work and write a new yearbook. This year the book will collect all your activities during GS biofuels-2

DEADLINE FOR YOUR DOCUMENT
20th September to be send to Mia
(mia.makinen@abo.fi)

Mia will send you a template in due time

All students connected to the school will have to give their contribution. This means all of you, also those who left the school during the last year!!!, that get their salary and those who are "connected" to the school.

This year you will have to write a summary of the activities of the last 4 years
i.e. summary of plan, results, your publications and your travelling should all be reported there.

If you doubt if you are part of the school please contact your supervisor at your university or the coordinator (mzevenho@abo.fi)

Course :Thermal conversion of solid fuels

(see attachment)

Students may participate. Please take contact with Flemming Frandsen about special arrangements for GS biofuels students
