## PCC Winter Colloquium 2017

### *Analysis and Synthesis for Academia and Industry*

February 16, 2017

Auditorium Salin, Axelia II, Biskopsgatan 8

Chairman Reko Leino

- 12.15 Refreshments and registration
- 12.30 Stefan Willför, Åbo Akademi University  
*Selling analytical services to the industry - an opportunity or a threat for a university laboratory?*
- 13.00 Tapio Salmi & Kari Eränen, Åbo Akademi University  
*Reaction calorimetry - principles and opportunities*
- 13.30 Tomasz Sokalski, Åbo Akademi University  
*CaMaFree - Calibration- and maintenance-free multi-sensor probe for wireless monitoring*
- 14.00 Break**
- 14.15 Jari Sinkkonen, University of Turku  
NMR spectroscopy - so cool, spinning and relaxing
- 14.45 Jan Deska, Aalto University  
Synthesis of complex heterocycles based on biocatalytic and enzyme-metal-coupled rearrangement strategies
- 15.30 Ulriika Vanamo, Åbo Akademi University  
Winner of the "Alfhanska priset"  
*Solid-state reference and ion-selective electrodes - towards portable potentiometric sensing*
- 16.00 Future aspects and closing of the seminar
