

Johan Gadolin
Process Chemistry Centre

PCC Winter Colloquium
March 3, 2016
Auditorium Ringbom
Axelia II

- 11:45 Registration and Light Lunch
- 12:15 Welcoming words, professor Stefan Willför
- 12:20 Nanocellulose scaffolds for biomedical applications, docent Chunlin Xu
- 13:00 A new approach to the kinetics of hydrolysis and substitution reactions of polysaccharides, professor Tapio Salmi
- 13:40 Development of NMR infrastructure at Åbo Akademi and University of Turku, professor Jorma Mattinen
- 14:10 Coffee/Tea
- 14:30 Modeling tools for understanding detailed chemistry in high temperature industrial processes, academy research fellow Daniel Lindberg
- 15:10 New signal transduction principle for solid-contact ion-selective electrodes, professor Johan Bobacka
- 15:50 Conclusions, professor Stefan Willför
