

ISB Student's Spring Meeting 2011

Welcome to Seili

Organizing committee, Heikki, Maria and Shishir, wish you welcome to the beautiful (and hopefully sunny) island of Seili to spend few days in a good company discussing about glorious future. Here is some info and things to consider:

Seili info pages in Finnish and in English:

<http://www.seili.utu.fi/>

<http://www.seili.utu.fi/en/>

Clothing and stuff:

It is summer, and in case of sunshine the weather is nice and warm. Do notice, anyway, that in archipelago temperature is lower and the wind is cold. Take warm clothes with you! High-heels are not recommended 😊 Remember to bring your swimsuit and although linen is included, you might want to have an extra towel at the sauna. In case you are interested in night-time expedition around the island, take flashlight with you. City lights won't enlighten your way.

Bus from Helsinki:

The bus will leave from Helsinki main train station (Elielin aukio, Eliel square) 8.30. Next stop is Viikki campus (parking place next to Neuroscience center and Biocenter 3). In Helsinki - Vantaa airport the bus will stop at charter bus stop. We agreed to your request to stop also at Biocity (Dental parking place), be there 11.30.

Viikki campus:

Helsinki – Vantaa airport:

Arrival to and leaving Seili:

Due to uncertainties in ferry traffic (+VR...), our schedule might be a bit tight on Thursday afternoon, so please be in the lecture room as soon as you can. When we arrive to Seili our luggage is taken to cottages and we will follow by foot (map 48.-50.). You will have a minute to leave the luggage in to your rooms. Soon after that you can have coffee and we will start the first session as soon as we can, or 14.30 if we are on time.

On Friday afternoon be in the harbor (map 1.) on time. We will take a connection boat from Seili to Nauvo, and it will not wait for us. Be in harbor 14.15!

Arrangements:

The food is served at the main building (map 23.). The lectures also take place there.

We have two saunas for Thursday night. One is mixed sauna (with a possibility to change clothes in the toilet), where we will also have evening snack (chicken skewers, sausages, tuna salad + vegetarian choice) and drinks (map 34.). From there you can go swimming, water is already + 10 °C ☺ There's also a big room with fireplace to spend the evening. Other sauna is on the other side of the island, and will have separate women's and men's turns (map 10.).

Cottages are for 12 persons, with rooms for two. One of the cottages is for get together activities and has a fireplace and kitchen (map 51.)

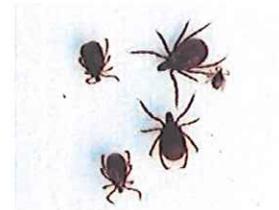

Seili has a university wireless internet connection and computers that we can use.

Ticks:

Turku archipelago is famous for these nasty little things. Check the tick info! Avoid walking in long grass and remember to check your skin and clothes in the evening!

<http://www.punkki.net/>

<http://www.lymediseaseaction.org.uk/ticks.htm>

Bulls:

Seili personnel asked us to inform you about the bulls grazing on the island. They might arrive to Seili next week. Bulls are kept behind electric fences, but you shouldn't go too close or annoy them....

Flights on Friday!

Those of you, who are flying from Helsinki on Friday evening, please remember to do **check in** via internet already in the morning in Seili. You should arrive to airport in time, but in case there is a delay on a way to Helsinki, you can go straight to security check. We also recommend you to have hand luggage only.

Questions:

If you have got anything to ask, do not hesitate to contact the organizers Heikki, Maria and Shishir!
