Upgrade to 4.1 and additional guides

ÅAU's Moodle has been upgraded to version 4.1 and at the same time got a new layout on the login page and in the courses, as well as smoother ways to make settings.

In the resource room you will find video guides for navigation, as well as guides for new activities and new features in existing activities.

Login

Click on HAKA /ÅA login to log in <u>https://moodle.abo.fi/</u> (same address as before).

Dashboard

When you log in, you will be taken to the dashboard.

In the Instructions block right, you can request a course template for a new course or course copy. Here you will also find links to guides.

Change language

You change the language via the profile – click on Språk > English.

If your course looks like this, i.e. similar to before

we recommend that you switch to "ÅAU theme" via Settings to get a slightly updated look: (The reason why your course looks like this means that you have previously selected the theme Boost or Classic manually)

In Classic: So go to the block Course administration > Settings > Appearance: Force theme and change to "Do not force" (this is the ÅA theme). In Boost, go to Settings and switch there.

(you can later change back if you want!)

The tabs for course-level settings and in activities & resources

Participants tab

The drop-down menu contains all settings regarding users, groups, registration methods (incl. course key):

iove test juni/june 2023 Course Settings Participants Grades Reports More -Sack to course ¢ Inrol users Enrolled users Enrolments er Enrolled users Enrolment methods Groups • ect Groups Groupings Clear filters Ap Overview Permissions Permissions D E F G H I J K L M N O P Q R S T U V W X Y Z Other users D F G H I J K L M N O P Q R S T U V W X Y Z Check permissions Nothing to display

Grades tab

In the drop-down menu, you can access all settings for the grade book (Grade book setup), to give grades via Grader report, etc.

The corresponding tabs as for the course settings can be found in the activities and resources The setting s are found here instead of in an administration block on the left, but otherwise work in the same way as before.
